SC-3003

Ultimate coin counter for reliable and modern cash processing

Efficient and Reliable Counting

High-speed coin counter

SCAN COIN

The SC-3003 is a high capacity coin counter and its quality and variety of smart functions are appreciated by thousands of users worldwide. In short, the SC-3003 is considered to be one of the most robust and high quality coin counters on the market today.

A high speed counter

The SC-3003 coin counter has been especially developed to count large quantities at a fast rate, ensuring efficient and reliable counting of incoming coins or tokens. Its high capacity, up to 3,500 coins per minute, makes it a popular coin counter at banks and cash centres all over the world. The SC-3003 features an auto-stop when the last coin has passed, and a non-volatile memory allows storage of the counted coins. The automatic off-sorting of smaller coins allows the separation of mixed denominations.

State-of-the-art reliability

Trust SC-3003 to consistently deliver accurate results. The electronic inductive sensor guarantees high precision counting while making the SC-3003 virtually unaffected by dirt and grime. This results in reduced wear and cleaning, as well as the prevention of annoying interruptions. The machine also features a built-in function for reversing jammed coins and restarting automatically.

User-friendly performance

The SC-3003 has a wide range of smart functions and accessories to meet a wide variety of requirements. This, together with seven preprogrammed quantity stops and one continuous, makes the SC-3003 a very efficient filling machine, whether applied to coin tubes or bags of different sizes. Changing between tubes and bags is easy using the accessories available. The denominations are easily selected by turning one handle and all actions and settings are clearly monitored at the operator panel. Efficient and ergonomic coin handling is achieved by using the SC-3003 foot-control. All in all, the SC-3003 is a superior performer with many user-friendly possibilities.
